

OWNER'S MANUAL
TURBO ACTIVE RESPONSE FEEDER™
Pneumatically Agitated Paintball Loader

Specifications:

Power Supply: Blow Back Pressure
Power Source: Power Take-Off Pin™
Capacity: 225+ Rounds .68 Caliber
Agitation Rate: Continuous
Warranty: Limited 60 Day Warranty
(proof of purchase required)

For 60 Days from the date of purchase, TURBO-PAINTBALL™ LLC. will repair or replace this loader free of charge if defective in material or workmanship. This warranty gives you specific legal rights. You may also have other rights which may vary from state to state. Service is available from authorized Turbo Paintball™ service centers. A list of these is available at the official TURBO-PAINTBALL™ LLC. web site. WWW.TURBO-PAINTBALL.COM

U.S. Patent No: 5166457
Other US and Foreign Patents Pending

The TURBO ACTIVE RESPONSE FEEDER™ is a pneumatically operated agitated paintball loader designed for high performance and reliability. The patented design allows for continuous agitation for the high rates of fire encountered with modern paintball markers. The TURBO ACTIVE RESPONSE FEEDER™ was designed by our team of engineers and paintball playing enthusiasts to provide tournament level performance without the use of batteries or electronics.

The goal of the designers of the TURBO ACTIVE RESPONSE FEEDER™ was to deliver a high performance paintball loader utilizing the excess energy that is readily available with most modern paintball markers. Utilizing an industry first** Power Take-Off Pin™ (PTO-Pin™) or simple press on fitting the engineers at TURBO-PAINTBALL™ LLC. have harnessed 'FREE'

Energy and used it to keep your paintballs from jamming. The TURBO ACTIVE RESPONSE FEEDER™ delivers continuous agitation with every cycle of the paintball marker without the use of batteries or electronics.

RULES OF SAFE PAINTBALL MARKER HANDLING

1. Always wear proper eye, face and ear protection designed specifically to stop paintballs.
2. Never shoot a person who is not wearing proper protection.
3. Treat every paintball marker as if it were loaded.
4. Never look down the barrel of the marker.
5. Never point the paintball marker at anything you don't wish to shoot.
6. Keep the paintball marker on safe until ready to shoot.
7. Keep the barrel cover on the paintball markers muzzle when not shooting.
8. Always remove gas source before disassembly.
9. Store the paintball marker unloaded and degassed in a locked place.
10. Follow warnings listed on gas source for handling and storage.
11. Never use anything other than .68 caliber paintballs.
12. Do not shoot fragile objects such as windows.
13. Paintballs may cause staining of some porous surfaces such as brick, stucco, wood.
14. Always measure velocity before playing paintball.
15. Never shoot at velocities in excess of 300 feet per second.
16. Never engage in vandalism.
17. Do not use marker for drive by shootings.
18. Do not modify your marker's pressurized air system or cylinder in any way.
